

| Category | Commercial name | INCI | Producer | Description |
|--------------|-----------------|--------------------------------------|----------|--|
| CONDITIONNER | ESAFLOR EC 3 | Guar Hydroxypropyltrimonium Chloride | lamberti | Natural based conditioners for opaque hair formulation. Silicon and oil deposition enhancers and/or thickeners. Film formers (skin care) and detoxifiers (liquid soaps) |
| CONDITIONNER | ESAFLOR EC 4 | Guar Hydroxypropyltrimonium Chloride | lamberti | Natural based conditioners for opaque hair formulation. Silicon and oil deposition enhancers and/or thickeners. Film formers (skin care) and detoxifiers (liquid soaps) |
| CONDITIONNER | ESAFLOR EC 5 | Guar Hydroxypropyltrimonium Chloride | lamberti | Natural based conditioners for opaque hair formulation. Silicon and oil deposition enhancers and/or thickeners. Film formers (skin care) and detoxifiers (liquid soaps) |
| CONDITIONNER | ESAFLOR ZERO-X | Guar Hydroxypropyltrimonium Chloride | lamberti | New patented cationic conditioner designed for reducing environmental impact and improving sustainable process |
| CONDITIONNER | ESAFLOR PFT | Guar Hydroxypropyltrimonium Chloride | lamberti | Ecosustainable Cationic guar with conditioning effect for transparent formulation |
| CONDITIONNER | ESAFLOR HC56 | Guar Hydroxypropyltrimonium Chloride | lamberti | Hydrophilic cationic guar provides good conditioning, maintains foam volume, improves wet and dry combing and gives a pleasant soft dry hair feel |
| CONDITIONNER | ESADERM 10 | Hydroxypropyl guar | lamberti | Ready to use clear liquid solution of non ionic guar derivative. It works as skin elasticizer and film former. Mainly suggested in creams, it can be used also in transparent gels |
| EMOLLIENT | STEROL CC/595 | STEROL CC/596 | lamberti | Hydrophilic emollients with good re-fattening properties suggested in liquid soaps and shampoos |

| Category | Commercial name | INCI | Producer | Description |
|------------|-----------------|-------------------------------------|----------|---|
| EMOLLIENT | STEROL LG/492 | PEG-7 Glyceryl Cocoate | lamberti | Hydrophilic emollients with good re-fatting properties suggested in liquid soaps and shampoos |
| EMULSIFIER | ROLFOR LA 9 | Laureth-9 | lamberti | Emulsifiers and co-surfactants, dispersing agents, solubilizers or wetting agents for toiletries, skin-care and hair products |
| EMULSIFIER | ROLFOR LA23 | Laureth-23 | lamberti | Emulsifiers and co-surfactants, dispersing agents, solubilizers or wetting agents for toiletries, skin-care and hair products |
| EMULSIFIER | ROLFOR HT/6 | Ceteareth-6 | lamberti | Emulsifiers and co-surfactants, dispersing agents, solubilizers or wetting agents for toiletries, skin-care and hair products |
| EMULSIFIER | ROLFOR HT/11 | Ceteareth-11 | lamberti | Emulsifiers and co-surfactants, dispersing agents, solubilizers or wetting agents for toiletries, skin-care and hair products |
| EMULSIFIER | ROLFOR HT/25 | Ceteareth-25 | lamberti | Emulsifiers and co-surfactants, dispersing agents, solubilizers or wetting agents for toiletries, skin-care and hair products |
| EMULSIFIER | STEROL ST/100 | PEG-100 Stearate | lamberti | Non-ionic emulsifier and co-emulsifier for O/W systems for skin and hair care application |
| EMULSIFIER | TEWAX TC 65 | Glyceryl Stearate, PEG-100 Stearate | lamberti | Non-ionic emulsifier and co-emulsifier for O/W systems for skin and hair care application |
| EMULSIFIER | SORBIROL O | Sorbitan Oleate | lamberti | Non ionic W/O emulsifying agents |
| EMULSIFIER | SORBIROL L | Sorbitan Laurate | lamberti | Non ionic W/O emulsifying agents |
| EMULSIFIER | SORBILENE L/H | Polysorbate 20 | lamberti | Non-ionic emulsifiers and solubilizers for toiletries |
| EMULSIFIER | SORBILENE SH | Polysorbate 60 | lamberti | Non-ionic emulsifiers and solubilizers for toiletries |
| EMULSIFIER | SORBILENE O/SP | Polysorbate 80 | lamberti | Excipients for pharmaceutical uses to stabilize emulsions and suspensions complying with European Pharmacopeia (8.0) |

| Category | Commercial name | INCI | Producer | Description |
|-------------|---------------------|--|----------|---|
| EMULSIFIER | ALPICARE COH 40 E/P | Macroglycerol Ricinoleate | lamberti | Excipients for pharmaceutical uses to stabilize emulsions and suspensions complying with European Pharmacopeia (8.0) |
| EMULSIFIER | SORBILENE L/EP | Polysorbate 20 pharma | lamberti | Excipients for pharmaceutical uses to stabilize emulsions and suspensions complying with European Pharmacopeia (8.0) |
| EMULSIFIER | SORBILENE O E/P | Polysorbate 80 pharma | lamberti | Excipients for pharmaceutical uses to stabilize emulsions and suspensions complying with European Pharmacopeia (8.0) |
| SOLUBILIZER | ALPICARE NS | PEG-40 Hydrogenated Castor Oil, Trideceth-9, Water | lamberti | High performing solubilizer based on non ionic surfactants |
| SOLUBILIZER | ALPICARE CO 36 | PEG-36 Castor Oil | lamberti | Non ionic solubilizing agents for fragrances, essential oils, lipophilic actives and vitamins |
| SOLUBILIZER | ALPICARE COH 40 | PEG-40 Hydrogenated Castor Oil | lamberti | Non ionic solubilizing agents for fragrances, essential oils, lipophilic actives and vitamins |
| SURFACTANT | EUCAROL AGE EC | Disodium Coco-glucoside Citrate | lamberti | α -hydroxyacid derivatives, based on renewable raw materials for very mild and natural formulations. Conform to Ecocert and Cosmos cosmetics standards |
| SURFACTANT | EUCAROL AGE ET | Sodium Coco-glucoside Tartrate | lamberti | α -hydroxyacid derivatives, based on renewable raw materials for very mild and natural formulations. Conform to Ecocert and Cosmos cosmetics standards |
| SURFACTANT | EUCAROL D | Sodium Dilaureth-7 Citrate | lamberti | α -hydroxyacid derived surfactants for sulphate free formulations. Very mild can be used also as detoxifiers |
| SURFACTANT | EUCAROL B/M | Laureth-7 Citrate | lamberti | α -hydroxyacid derived surfactants for sulphate free formulations. Very mild can be used also as detoxifiers |
| SURFACTANT | ALPICARE GL 612 | Disodium Cocoyl Glutamate, Sodium Cocoyl Glutamate | lamberti | Natural raw materials based foaming surfactant |

| Category | Commercial name | INCI | Producer | Description |
|------------|-----------------|---|----------|--|
| SURFACTANT | EUCAROL AGE-C50 | Disodium Coco-glucoside Citrate, Propylene Glycol | lamberti | α -hydroxyacid derivative in propylene glycol, from renewable raw materials, suitable for mild and natural formulations |
